Dan:

Attached please find copies of our recent correspondence with Autonetics and Headquarters, Air Force Ballistic Missile Division.

In this correspondence we requested additional information relative to the reliability program on the Minuteman. We believe this information would be very valuable to us in setting up reliability standards and procedures on [] Program. You will note that the latest place of correspondence indicated that our request must be submitted through the military agency monitoring the contract for which the information is to be used.

STATINTL

Would you please take the necessary steps to obtain this information for us. Since we have been after this information for over a month, we would appreciate your prompt attention to this matter.

Charlie
